## INDOOR LFX COB SERIES

LFX-I-15.00-CTXX-COB-Z3-480-24-CV-10-H-1-XX-XX

# SRI JAPE NON-WATER CULUS C C 15.0W

YYZ LFX COB IP20 series features excellent homogenous light, without visible light points. The COB strip is a high-density led lighting strip made by COB encapsulation, which can reduce the thermal resistance of the high-density strip circuit system, greatly improves the life of the LED, and the light flux density is high, the glare is small, and the light is uniform. These series is perfect for indirect lighting and hence used in offices, residential interiors, furniture, or places which require large luminous surface.

#### FEATURES

LIGHT SOURCE	(
LED QUANTITY	
FINISH	
WORKING VOLTAGE	
RATED POWER	
RADIANCE ANGLE	
LAMP LIFE	!
MOUNTING	
CONNECTION	I
CUTTING INCREMENTS	I
DIMENSIONS	!
MAX DAISY RUN	!

COB 480 Leds / m White PCB 24 Volts 15W / m 120° 50,000 hrs 3M tape on the back Hardwired tails Every 50mm 5000 x 10mm 5 m

#### **ELECTRICAL DATA**

POWER CONSUMPTION	15.0W
SUPPLY VOLTAGE	24 Vdc
SUPPLY CURRENT	200mA
COLORS	2700K, 3000K, 4000K, 6500K, Blue, Green
CRI	90
LUMEN	1380, 1480, 1600, 1620, 375, 1665 lm/m

#### **ORDERING LOGIC**

PRODUCT SERIES	ТҮРЕ	POWER	COLOR TEMPERATURE	LED TYPE	BIN	NO. OF LED	VOLTAGE	CIRCUIT	РСВ	CRI	NO OF LED ROWS	CONNECTION

### STRIP TO STRIP CONNECTION

Put the LED strip directly into the connector and make sure both ends of led strip are tightly connected

Make sure that the positive and negative match correctly, "+" to "+", "-" to "-"

Press the sheet metal completely

#### STRIP TO CABLE CONNECTION

Put the LED strip directly into the connector and make sure both ends of led strip and connecting cable are tightly connected

Make sure the positive and negative match correctly and press the sheet metal completely
